

LSART VMRC

Household Pet Evacuation

and

Pet Shelter Training

4- 8 hours CE for DVMS, RVTS, CAETS

WHO?

Animal Control Officers, Veterinarians, Veterinary Students, Veterinary Technicians, Citizen Volunteers, LSART Members

4-hour Pet Evacuation Training Course

This section covers guidelines for setting up and operating a pet registration and loading station at a Parish Pickup Point (PPP) or other designated evacuation area in a community. This protocol was designed to assist with the evacuation of household pets belonging to residents without means of private evacuation transportation. In Louisiana, these residents are designated as Critical Transportation Needs (CTN) population. The goal of this course is to provide the user with a standardized guideline for safe and efficient household pet evacuation, while guaranteeing that all pets are properly identified, registered and linked to their owners, thus ensuring that they can be reunited if separated.

4-hour Pet Shelter Training Course

This section covers guidelines for setting up and operating a temporary pet emergency shelter in a community. This protocol was designed to assist with the sheltering of household pets belonging to Louisiana residents, recognizing that not all shelters can be co-located or pet-friendly. The goal of this course is to provide the user with a standardized guideline for safe and efficient household pet shelter operation, while guaranteeing that all pets are properly identified, registered and linked to their owners, thus ensuring that they can be reunited if separated. Shelter operators are encouraged to make every effort to prevent separation of pets from their owners and preserve the strength of the human-animal bond.

WHEN and WHERE?

Saturday July 18, 2020

Family Life Center of the

First Pentecostal Church of Denham Springs
